HELIOS project launched this CHALLENGE to involve external app developers in the development of novel decentralised social media apps for Android, based on helios.Core and helios.ExtensionModules developed within the project:
<https://helios-social.com/helios-for-devs/>

We are looking for teams of **2-4 people**, without limitation in size.

Introduction (by October 15th EoB)
Introductory video presentation, max 5 minutes + proposed end-user group (optional)

Submission (by October 20th EoB)
The APP as Android APK + phone models and Android versions used in testing the APP + list of HELIOS modules used + source code as a zip file

HELIOS team will provide sample applications with source codes and build instructions, related documentation video lectures.

We also will arrange Q&A sessions with topical introductions. These will be available throughout the competition.

Winners announcement
(by October 29th EoB)

1ST TEAM 1500€
2ND TEAM 500€
3RD TEAM 300€
